

Whaleback Nordic Ski Club

## Whaleback Times

Hello again. Thought I bring you up to speed with regards to the effect this snow had on our trails.

### Trail Report

Spoke to Kenny after he finished working this morning. He said that there was a good snowfall in the ski park. He drove the Foxtrot on snow mobile and packed what fell. He said both hills (Herringbone and Kamikazi) were wind swept(not surprised) with rocks exposed...NOT SKIABLE. Stay tuned, updates will be posted as we obtain them.

There is a great temptation to ski as soon as snow begins to accumulate. If you are overcome by the temptation, you ski at your own risk until the club officially opens after Christmas. The gate to the parking lot will probably be locked as will the door to the chalet. If you go for a ski, please let someone know you are doing so and carry a cellphone in case of emergency.

After Christmas, Trail Reports will be posted on our website. Go to: [www.whalebacknordic.com](http://www.whalebacknordic.com)

### Joining the Club?

As of this morning, the Whaleback Ski Club has 101 members. Not too bad...please note the Dec. 22 date as the cut off for the 5% discount.

Take care and have a relaxing Christmas

*December 20, 2015*
